

glm::vec3

```
graph BT; A[hmap::Vec3<float>] --> B[glm::vec3];
```

A diagram illustrating a relationship between two C++ types. At the bottom is a gray rectangular box containing the text `hmap::Vec3< float >`. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text `glm::vec3`. This visualizes `hmap::Vec3<float>` as a base class or a type that is convertible to `glm::vec3`.

hmap::Vec3< float >
